

SSO PROGRAM STATUS – JULY 2013

Program Highlights

- 108 active projects
 - 44 projects completed (over \$400M construction value)
 - 32 projects under construction (over \$470M construction value)
 - 32 projects in design (over \$290M construction value)
- Over 365 different Program partners
- Current overall Program budget - \$1.45B (including Consent Decree and Master Plan projects)
 - Consent Decree scope - \$1.294B (less than 2% increase over 10 years)
 - Master Plan projects budget - \$156M

Looking Ahead

The following projects are expected to advertise for construction bids during **3rd quarter 2013**. As projects are advertised for construction bid, they will be posted on the SSO Program calendar at www.brprojects.com.

Antioch Road–Chadsford Drive Comprehensive Rehabilitation Project (TBD): This project includes the rehabilitation of the sewer collection system in the area of George O’Neal St between Jones Creek Blvd and the parish boundary.

Government Street–South Acadian Thruway Capacity Improvement Project (09-GS-MS-0043): This project will upgrade about 9,800 LF of gravity main ranging from 12 to 27 in. in diameter near Government St between Foster St and Acadian Thwy.

South Boulevard–St. Joseph Street, Phase B Capacity Improvement Project (07-PS-BD-0048A): This project consists of approximately 1,400 LF, of new force main ranging from 24 to 30 in. diameter along River Rd and about 2,500 LF of new 36 in. diameter gravity sewer pipe along South Blvd.

Scenic Highway-Spanish Town Road: Phase 1 (TBD): Located north of I-10 and south of Hollywood St, this rehab project will consist of physically inspecting pipes and manholes to determine and correct defects in the system.

Plank Road Pump Station Improvements (11-PM-MS-0024): Located centrally on the parish’s western border, this project involves replacing 9 pump stations.

O’Neal Lane Pump Station Improvements – Group A (10-PS-MS-0050): This project will upgrade 17 pump stations to work in conjunction with force main upgrades in the southern portion of the parish.

Jones Creek Road/Tiger Bend Road Area Rehab Project (12-AR-MS-0038): North of I-10 and south of Old Hammond Rd, this project involves physically inspecting pipes and manholes to determine and correct defects in the system.

O’Neal Lane Pipeline Improvements – Group B (10-FM-MS-008B): Located in the southeastern area of the parish, this project involves replacing and constructing over 1,000 LF of 18 in. diameter gravity main and 27,000 LF of force main ranging from 6 to 36 in. in diameter.

O’Neal Lane Pump Station Improvements – Group B (10-PS-MS-0051): This project, located along the southeastern border of the parish, involves replacing 27 pump stations, including converting BPS 889 from an in-line booster station to a wet well pump station.

Interstate 110-Hollywood Street (TBD): This rehab project will consist of physically inspecting pipes and manholes to determine and correct defects in the system in the area north of Winbourne St.
